

To Whom It May Concern,

Anthony Berot and his team at Nerds-On-Site (NOS) consistently provide the YMCA of Greater Toronto National Programs Office with the Technical expertise and level of customer service we require to plan, implement, and manage the complex array of technology solutions required to run a large and complex national initiative.

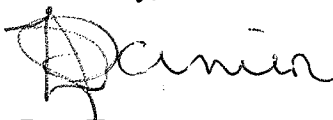

Anthony has been able to guide us through a successful migration process and made the whole process seem as seamless as possible.

I am of the opinion that the professionals at NOS have helped the FPSYIP National Office take our project management practices to a new high.

Created in the spirit of the Youth Employment Strategy, the Federal Public Sector Youth Internship Program, has allowed the creation of over 10,000 internship opportunities for youth since its inception in 1997. The National on-line administration systems involve a complex array of Hosting Solutions, Application Maintenance, and Development work.

I would highly recommend Anthony and Nerds On Site to anyone looking for results oriented technology support and solutions.

Sincerely,

Dan Trepanier  
Manager, National Programs  
Directeur, Programmes Nationaux
